

Air Pressure - indicators

Precision mechanical barometer, fixed and portable

Technical data	Ref.No.
precision barometer 920-1050 hPa, portable	2039.70392
certificate	factory certificate
construction	with leather case, thermometer
dimensions	dial 115mm, height 55mm
extra measuring ranges	on request
max. height	0...500m
weight	720g
absolute pressure	
principle	pre-aged copper-beryllium chamber
measuring range	920 ... 1050 hPa
accuracy	±1.5% of range
resolution	0,5 hPa
temperature	
principle	glass-capillary-thermometer
measuring range	-6 ... 46 °C
precision barometer 850-980 hPa, portable	2039.70492
max. height	500...1000m
measuring range	850 ... 980 hPa
precision barometer 800-930 hPa, portable	2039.70592
max. height	1000...1800m
measuring range	800 ... 930 hPa
accuracy	±1.5% of measurement range, + 1 graduation

Technical data	Ref.No.
precision barometer 870-1050 hPa	2187.70692
construction	chrome-plated housing and mounting flange
dimensions	dial 115mm, height 60mm
extra measuring ranges	on request
max. height	0...900m
weight	1040g
absolute pressure	
principle	pre-aged copper-beryllium chamber
measuring range	870 ... 1050 hPa
accuracy	±1.5% of range
resolution	0,5 hPa
precision barometer 760-950 hPa	2187.70792
max. height	900...2000m
measuring range	760 ... 950 hPa
accuracy	±1.5% of measurement range, + 1 graduation
