REMOTE  
THERMO/-/  
HYGROMETER  
EMR 899 H  
ART.-NR.: 9101

#### Specifications:

**EMR 899 HG H**  
**Art.-No.: 9101**

#### Main unit

- Wireless temperature data transfer from 3 different remote sensor units
- Wireless transfer: 433 MHz frequency (UK: 418 MHz)
- Measuring range for main unit:  
Indoor temperature: -5°C to +50°C  
Relative humidity: 25% to 95%
- Memory for Min./Max. temperature, relative humidity
- Temperature and humidity alarm for channel 1
- Resolution:  
Temperature: 0.1°C  
Relative humidity: 1.0%
- Switch able from °C to °F
- Table stand, wall mount feature
- Incl. 2 batteries 'AAA' 1.5V

#### Remote Sensor Unit

- Measuring range for remote sensor unit:
- Temperature: -20°C to +60°C
- Humidity: 25% to 95%
- Water resistant remote sensor unit with LCD display and LED indicator
- Data transfer: every 30 seconds
- Range depends on fabric and location: max. 30m
- Incl. wall mount feature
